

Project Perfect – Method H

Package Contents

Thank you for making the decision to purchase Method H. The zip file you have downloaded contains an installation program. Just run the install and make the necessary decisions during the installation process

Install

When you run the install you will be asked for a password. The password is 475191. Your registration number is 918752. Please enter this by selecting the "Registration" button on the initial screen, and entering the number. The main decision you have to make is whether to install the Access runtime program on your PC. If you have Microsoft Access 2002 or later installed, you do not need to install the runtime. To check if it is installed, go to your Start Menu, All Programs, Microsoft Office, and check if Access is listed with Word, Excel etc.

Running the program

We will send you a registration number in the next few days. If your temporary registration has expired, and you cannot open Method H, please start the application whilst holding the shift key down. This will allow you to get to the registration area.

As a purchaser we have taken the liberty of adding your name to our mailing list. We advise subscribers when a new project management white paper is issued in case the topic is of interest. Typically we publish every 3 weeks. If you would like your name removed, please send an email to unsubscribe@projectperfect.com.au

Where can you get Help

Most of the questions we receive are covered in the System Administration manual that will be installed with the program.

Additional answers are on our web site at: <http://www.projectperfect.com.au/faq.htm>

If you do get stuck send us an email to support@projectperfect.com.au and we will respond within one working day – often sooner.

Regards

Neville Turbit
